MISSOURI RACE APPEARS CLOSE

Odds Offered That Coolidge Will be Re-elected
La Follette Appears Losing Votes Since Visit
Republicans Expected to Win Seats in Congress

[EXCLUSIVE DISPATCH]
ST. LOUIS, Nov. 1.—With the political campaign in Missouri brought to a close, both Republican and Democratic party leaders are making claims that their Presidential candidates will carry the State. Whichever way the election goes, both sides agree it is going to be a close shave. The Republicans assert the drift has been decidedly toward Coolidge in the last days of the campaign, while the Democrats declare with emphasis that Davis has been equal gaining votes since his appearance here a few days ago. So uncertain is the outcome that few bets have been made thus far, even money being offered. Odds of more than 2 to 1, however, are being offered that Coolidge will be re-elected. One broker has placed \$1150 against \$500, wagering that Coolidge will win the election. There was one flare-up in the State Governorship race that threatened for a time to stir up animosity to the Democratic ticket. W. F. Phares, chairman of the Republican State Committee, made public two affidavits in which it was charged Dr. Arthur W. Nelson, Democratic nominee for Governor, had joined the Ku Klux Klan. The two men who swore to the affidavits said they had seen Nelson at a Klan meeting at California, Mo., and that he had been sworn in as a member. Nelson previously had denied Klan membership on many occasions.

KLAN CONNECTION
When the sworn statements were made public, there was consternation in Democratic ranks momentarily. But Dr. Nelson came out quickly with a statement denying he is a member of the Klan or that he ever had been one. He did admit, however, that he had been seen at the Klan meeting as a spectator at the insistence of a friend. He explained that in order to get in at the grounds, he had signed some sort of card, but insisted that it was not a card applying for membership and that he had not joined. This explanation, although having a damaging appearance, seems to have been accepted at par by Democrats and from all indications the situation has had little effect. As far as the La Follette sentiment goes, the crust seems to have been reached in this State with his appearance here three weeks ago, and he has suffered a loss of votes. One element that seemed to defect from the La Follette camp was the announcement that Charles Nagel, who was long a leader among the German element, would cast his vote for Coolidge. Nagel denounced the views of La Follette and declared he could not favor Davis because he feared the election might be thrown into the House, where Charles Bryan had a chance of becoming President.

"TIMES" ELECTION SERVICE

In accordance with its custom, The Times will maintain an up-to-the-minute election service by stereopticon, radio, telephone and extra editions Tuesday evening. Returns will be flashed on a screen at First and Broadway as rapidly as received and will be given by telephone to all who call. The trend of the election in all parts of the country, as gathered on The Times' own wires, will be broadcast from KHL, The Times radio station.

GERMANS DIVIDED
In an attempt to offset the Nagel stand, the news service a few days later made it known that Richard Bartholdt, who represented the Tenth Missouri District in Congress for twenty years and who has always had a strong German following, would cast his ballot for the "Wisconsin" Senator. Keen observers say the Bartholdt statement did not sway so many votes as the Nagel announcement and it came too long after La Follette's visit here to have a far-reaching effect. With the German element split in its support of La Follette, his chance for polling a heavy vote in Missouri has dwindled. He still has a strong hold on the railroad workers, but it is estimated this vote will not total more than 12,000. His vote is likely to run about 30,000 impartial observers predict.

CITY TO DECIDE
Both Davis and Dr. Nelson are expected to make a good showing in rural Missouri. The Republican stronghold is in this city and it is in reality the deciding factor in the national race. Unbiased politicians have said Davis would come to St. Louis with a lead of about 50,000 or more votes and that the Republican ticket in St. Louis would be about 35,000, giving Davis a lead of 25,000 in the State. But there undeniably has been so much changing of votes in the last few weeks that this predicted lead will be cut down materially, and might even be wiped out entirely, giving the victory to the Republicans. A great deal is going to depend on getting out the vote. There has been much apathy shown in the registration for the city, the total figures being about 12,000 less than a year ago, although the city is known to have gained considerably in population. One of the last-minute announcements of a switch to Coolidge was that of Festus J. Wade, president of the Mercantile Trust Company, one of the largest institutions of the city. Wade said he would vote to re-elect the President, although he formerly was a Democrat. Wade said he felt Coolidge would be the best man to protect the Constitution.

FOUR AMENDMENTS
Missouri is to choose three Representatives to Congress—St. Louis, the Tenth Congressional District. In the Tenth and Twelfth, it is likely C. L. Newton and L. D. Taylor will be returned. Both are Republicans. In the Eleventh, Harry B. Hawes is making a fight for re-election and indications are he will win out. In addition to the general election, the State will vote on four proposed constitutional amendments and four propositions. The constitutional amendments provide: Two additional Supreme Court judges, a means for revising the State Constitution, a means for revising the charter of the city of St. Louis and the regulation of salaries and expenses of members of the General Assembly. The four propositions deal with a plan to complete the State highway system, a plan for workmen's compensation, a plan to annex portions of St. Louis county to the city and a plan to exempt from taxation property used for religious worship.

FOURTEEN IN FUNERAL PARTY DEAD

Four Other Persons Who Attended Rites Expected to Die of Pneumonia

The fatality list of victims among a group of Mexicans who attended the funeral of Mrs. Luciana Samarano increased yesterday from nine to fourteen, according to reports in the office of the City Health Department. Those who died yesterday were: Gilberto Samarano, 14 years of age, 743 Clara street. Estren Herrera, 72, 232 Baughet street. Joe Bagnola, 35, 742 Clara street. Juana Moreno, 1718 Marengo street. Corlino Moreno, 517 Rosabelle street. Four other persons were not expected to live last night. All of the fourteen deaths, city health officials stated, have been or persons who attended the funeral of Mrs. Samarano, who died of pneumonia October 19, at the Clara street address, or were relatives of persons present at the service. Acting City Health Officer Pascoe described the disease as a severe form of pneumonia. He stated that all cases are under perfect quarantine control and that there should be no fear of the malady spreading outside the small circle of Mexicans who attended Mrs. Samarano's funeral. Strictest quarantine regulations have been established, all patients have been isolated, and an ample guard of quarantine officers has been stationed in the area bounded by Alameda, Macy and Alhambra streets and the Los Angeles River. Word was received from Washington last night to the effect that the United States public health service will lend any necessary aid to local health officials in handling the situation, should it become serious. Dr. Mark J. White, acting surgeon-general of the United States public health service, announced that he is sending two specialists to Los Angeles.

NEBRASKA SEEN FOR COOLIDGE

Farmers, Pocketing Wheat Coin, Shun Radicals
Republican Margin of 30,000 Forecast by Observers
La Follette's and Davis's Attacks Weak

[EXCLUSIVE DISPATCH]
LINCOLN (Nebr.) Nov. 1.—Expert political opinion is that at least 450,000 votes will be cast by Nebraska at the coming election, and the indications are that the electoral vote of the State will go to Coolidge. Two months ago La Follette would have carried the State. A month more and Davis, at the speed he has been showing in the last two weeks of the campaign, would stand a better chance than he does now. When the campaign began it found the farmers in the dumps. Since then they have marketed half of a big wheat crop at an average of more than \$1 a bushel, or 50 per cent more than in any year since the war, and are getting ready to haul small armies of 200,000 bushels of corn that will bring them at least 95 cents a bushel. This fact and the optimism that followed have been of immense advantage to the Republicans, and form the basis of the belief that Coolidge will win by 20,000 or 30,000. The Republicans started in with the advantage of having at least 50 per cent of the vote. They have had by far the best organization. They have not only sent orators into all corners of the State, but they have had small armies of personal workers made necessary by the peculiar divisions of the vote. Many of these have been sent into the sections where colonies of foreign-born voters are largest. Others have worked with the labor union, and still others with the farmers.

LOSSES COMPLETED
The Democrats have worked along the same lines as the Republicans. These tactics were made necessary by the fact that at the beginning the 40,000 Germans of the State, foreign-born or foreign-born parents, were almost solid for La Follette. He won the members of the rail brotherhoods and a number of the trades unions. The former represented mainly losses of the Republicans, the latter the larger portion of the Democratic losses. There are about 40,000 union-labor votes in the State. Republican and Democratic strategy has been directed toward getting back as many as possible of those who had strayed. The La Follette campaign has not been very well financed, and the marked contrast of the State which were intent on taking advantage of La Follette's strength to aid in local and State contests. The number of campaign workers has been small, and the only personal work has been done by labor union men and their wives, who have made house-to-house canvasses in his interest.

HOPES UNFOUNDED
La Follette managers are pinning their hopes on a brain line. They have no polls or figures to back up their predictions of victory, but say that the combination of farm-labor with the Germans of the State is still in excellent working order and will produce at least the necessary 140,000 to win. The Democratic managers insist that their reports show that it is a horse race and that in the wind-up there will not be 30,000 votes between the high man and the low man of the three candidates. They say that in order to win they must get but 40,000 more votes for Davis than were cast for Cox. The latter polled 130,000 while Governor two years ago Bryan received 214,000. Probably 70,000 Democrats voted for Harding and 30,000 Republicans for Bryan, averaging up these figures, allowing for 50,000 Democrats wandering off in support of La Follette, and counting the 25,000 or 30,000 that did not vote in 1920, and they place the Davis vote at 140,000, which is enough to win.

GERMAN VOTE WON
Republican claims are founded on a great many more polls and reports than either of their opponents possess. These show the big inroads have been made upon the German vote by presenting the argument that the La Follette program means higher taxes, that his plan for overriding Supreme Court decisions by a vote of Congress endangers religious liberty, and that the Dawes plan is Germany's one hope for economical rehabilitation. They also show that a considerable portion of the Democratic conservative vote will go to Coolidge for two reasons, the attitude of Gov. Bryan toward business in his administration and the belief that if they do not vote for Coolidge La Follette may carry the State. Earlier in the campaign the Republicans openly expressed a fear that in the wind-up the followers of Gov. Bryan would desert the Democratic national ticket and support La Follette in the belief that by thus helping to throw the election into Congress they were doing much better for Mr. Bryan. Democratic hopes have been so carefully nurtured that any effort of this kind at this late hour would be fruitless, and there are no indications that Gov. Bryan and his brother have both been inviting all progressives to support the Democratic national ticket, and asking to live in the Republican camp to its support by telling them that La Follette has no chance. Senator R. B. Howell, who won by 50,000 two years ago, has been urging the election of the President in a series of speeches covering the principal points in the State. Senator George W. Norris, who has been a member of the La Follette group in the Senate and who has opposed the President openly in many matters, is not taking sides. He has made some fifteen or twenty speeches but he is supporting no one on either ticket save himself.

TWO BANKS IN IOWA REPORTED ROBBED

[BY A. P. WIRE]
ALGONA (Iowa) Nov. 1.—Two State banks at Ponton, Iowa, were robbed early today, according to reports reaching county authorities here. The robbers wrecked the vaults in the Farmers' Savings Bank and the Ponton State Bank and obtained \$2500 in cash and \$5000 in Liberty bonds. It was said.

MARGETT'S RUGS AND CARPETS EXCLUSIVELY

Margett Announces a Sale of \$97
200 Fine Wilton Rugs, 9x12

MONDAY, Tuesday and Wednesday we place on sale a large collection of beautiful Wilton Rugs. Most of them are 9x12 feet in size, some 8.3x10.6. These are Wiltons of the highest grade, made by the most famous makers and sold at much less than usual prices. Every rug is perfect and a very complete range of patterns and colorings is offered.

Included Are Anglo-Persians and Royal Wiltons

PERSONS who admire beautiful floor coverings and are at all posted upon prices will recognize the fact that this sale is not intended to make a profit. High-grade Wiltons usually sold at \$145, \$138.50 and \$125 do not net the merchant much profit at \$97. It is intended, rather, as a demonstration of Margett methods and values. In this upstairs store, dealing exclusively in carpets and rugs, we intend to sell at less than others at all times and to offer, during special events, values that are remarkable. This is one of the latter.

Monday-Tuesday-Wednesday Only

DRIVE IS ENDED BY LA FOLLETTE

Last Speech of Campaign is Made in Cleveland

Radical Reiterates Confidence in Tuesday Victory

Candidate Leaves for Home in Wisconsin to Vote

(BY A. P. MERRY WIRE)
CLEVELAND (O.) Nov. 1.—In Cleveland's public hall, where his independent candidacy for President was announced and the recent Republican National Convention was held, Robert M. La Follette closed his campaign tonight with a speech in which he reiterated confidence that he will win in Tuesday's election.
"The progressive tide is rising," he declared, "and will carry the Progressive on to victory."
"But this is only the beginning of the fight," he continued. "We cannot in one short struggle capture all the strongholds in which privilege has become entrenched. For more than fifty years the private monopoly system has been digging itself into the very heart of government. Its allies are in the executive department, in Congress and in the State. They have spent millions in securing their present power and they cannot be evicted in a day."
Recalling how, after being presented with a petition by "some 200,000 men and women from every State in the Union," he had announced on July 4, after a meeting of his supporters in the hall in which he spoke tonight, that he would become a candidate, Senator La Follette said:
"I thank God that I did accept. For no matter what may be the outcome of this election, no matter what may be my fate in the years to come, I shall forever rejoice that I had a part in this great campaign to restore government to the people. I shall be proud that I aided in proclaiming the message of this great movement—the message of humanity, liberty and justice."
Later Mr. La Follette went to the home of Warren B. Stone, president of the Brotherhood of Locomotive Engineers, to rest. After his address here, he departed for his Wisconsin home to vote. He is due in Madison tomorrow afternoon.

DOMINION CONSULS TO STAY

No Withdrawals to be Made by Mexico According to Ambassador Sheffield's Statement

(EXCLUSIVE DISPATCH)
MEXICO CITY, Nov. 1.—Ambassador Sheffield, discussing the British-Mexican situation here today with newspaper men, stated that he had been officially notified that Mexico would not withdraw its Consuls stationed in the British dominions, including Canada. This, he said, will greatly alleviate the confused situation existing among merchants who carry on trade relations between the dominions and Mexico.

Mr. Sheffield also stated that Great Britain had requested the United States for full information on the present attitude of Mexico toward England and that a lengthy questionnaire had been presented to Mexico so that a detailed reply would be forthcoming. This, it was indicated, may be used in ironing out the rather strained relations between the two nations.

Financially the United States is benefiting by the present estrangement between Mexico and Great Britain, Mr. Sheffield said, adding, however, that he considered he could do "sner work" than to bring about a better understanding between these two countries.

Observers here believe that Mr. Sheffield is doing his utmost to relieve the British-Mexican deadlock. In regard to the soviet envoy on the way to Mexico, Mr. Sheffield said he would have no official relations with him, although moments may arise when he, as dean of the Diplomatic Corps here, will be thrown into contact with the Red envoy. On these occasions, Mr. Sheffield said, he will be governed by the ordinary rules of good conduct.

Motorists With No Certificates Denied Licenses

(BY A. P. MERRY WIRE)
SACRAMENTO, Nov. 1.—Gen. Webb today ruled in an opinion to Will H. Marsh, director of the State Motor Vehicle Department, that motor-vehicle owners of California who failed to secure ownership certificates on purchase or who are unable to produce them cannot obtain registration licenses. This ruling was made by Webb in passing on three cases wherein the applicants for licenses had either failed to secure or to have properly signed ownership certificates, even though they presented to Marsh bills of sale and a statement of ownership sworn to before a notary.

DAWES PLAN FUNCTIONING IS DETAILED

Dr. Charles Martin Gives Club Women Explanation of Benefits Expected

How the Dawes reparations plan functions was explained in detail yesterday afternoon by Dr. Charles E. Martin, University of California, southern branch, before members of the Los Angeles district, California Federation of Women's Clubs, at the meeting in the Catholic Women's clubhouse, 917 South Menlo avenue, Loy Galpin, chairman of the Los Angeles district, presided. Mrs. Seward Simons discussed international questions and their influence on every home.

Dr. Martin told of the accomplishments of the Inter-Allied Conference, how an agreement had been reached to make the Dawes plan effective, and explained the resolutions adopted. He then pointed out how the Dawes plan functioned and told of the effect it would have on not only Germany, but all other European countries and also the United States.

It would mean reconstruction for Germany from an economic and financial viewpoint, and by increasing the purchasing power of that nation would bring prosperity to other European countries and add to the prosperity of the United States.

It would also operate, he said, as an equalizer of competition, the reparations Germany would have to pay affecting that country's industries as taxes affect industries in other countries.

His speech was followed by a general discussion, the club women present asking questions.

Bay City Bakers Will Raise Price of Loaf Monday

(BY A. P. MERRY WIRE)
SAN FRANCISCO, Nov. 1.—The price of the twenty-four-ounce loaf of bread is to be increased from 13 to 14 cents in San Francisco beginning Monday, according to an announcement appearing today in the *Greener Advocate*. The pound loaf will remain at 10 cents. The rising price of flour is given as the reason for the increase.

Makes Auto Go 40 Miles on Gallon of Gasoline

Sioux Falls (S. D.)—James A. May, 1815 Locust St., this city, announces the perfection of an amazing device that is enabling car owners to more than double their mileage from gasoline used and at the same time remove every particle of carbon from their motors. Many cars with this device attached have made over 40 miles on a gallon. It is automatic and self-regulating and can be attached by any one to any car in a few minutes. Mr. May wants agents and is willing to send a sample at his own risk to any one who will write him. Just send him your name and address.—[Advertisement]

Printing and Litho Salesmen Here's Your Opportunity!

A fully equipped, financially sound and ably manned young printing and lithographing concern needs aggressive salesmen. If you know the business—if you have an established trade—or if you have the necessary experience, we'll help you make more money. WRITE about your experience and we'll arrange an appointment. Your application will be kept in strict confidence. Address Los Angeles Lithograph Co., 207 No. Pacific Blvd., Huntington Park, Cal.

It doesn't pay to buy "seconds"

Home builders are not investing wisely when, for the sake of a few dollars' saving on the first cost, they permit the installation of "seconds" in plumbing fixtures. They pay less, but they get less than they pay for.

The enamel of the "bargain" bath-tub, lavatory or kitchen sink may be chipped in places, badly warped or off color. The toilet may be warped and otherwise defective.

A great deal of money is paid out each year for low-grade or "second" fixtures that are not worth half what they cost their owners. And much more is wasted every year in efforts to keep these defective units in working order.

Sooner or later the entire installation has to be ripped out and new fixtures put in. The final cost is much greater than if reliable materials had been used in the first place.

The only sure way of getting satisfactory equipment is to call in a plumbing contractor you can trust, one who handles trade-marked products. Tell him how much you can afford to spend, and let him help you to select the fixtures which will meet your needs and not exceed your building budget.

Such a contractor knows his business. His prices are fair. His materials and his work are always dependable.

Crane fixtures and fittings, sold and installed only by competent contractors, will give you a lifetime of trouble-free service and cost you less in the long run.

Visit the Crane Exhibit Rooms and see how wide is the range of styles at prices within reach of all.

ROLLS-ROYCE

A PERFECT BALANCE *of Excellence and Good Taste*

THE RESERVE OF AN ARISTOCRAT,

THE formal grace of perfect composition distinguish the Rolls-Royce. Yet, admirable as it appears, only those who know the principles that govern its manufacture can appraise it intelligently. Like a Greek bronze or a Renaissance facade, the Rolls-Royce delights those most who know it best.

THE ROLLS-ROYCE organization is not particularly interested in how or why other cars are made. It is not concerned with developing one feature at the expense of others. It does not, and it never will, make a car primarily to sell at a certain price. The single-track mind of this company works for this solitary purpose—to build the best car in the world.

And only after the Rolls-Royce is built, sold and housed in your garage do you begin to feel the worth of the inflexible rule of excellence that governed its manufacture.

A year of flawless performance and you begin to appreciate it. A few years more of hard usage and you

contemplate its repair bills, its upkeep and maintenance figures with complete satisfaction. Five years, six years, seven years—and at a point where most cars go to the second-hand dealer the Rolls-Royce is only fairly launched in your service.

And when you realize that a majority of the Rolls-Royces that tea-time brings to Pierre's, or that Monday night brings to the Metropolitan Opera, are more than ten years old... look about ten weeks old... run as smoothly as though they were ten days old... and have unnumbered years of perfect service yet to give... Then you will be ready and willing to admit that your Rolls-Royce has proved a

shrewd, safe investment in permanent transportation. And that your business caution and common sense has been completely justified. For the Rolls-Royce does not wear out. It takes the years as it takes the hills—in its stride. And so widely is this known that all over the world, men and women who will not concern themselves with less than the best turn instinctively to this incomparable motor car.

You are invited to call at the Rolls-Royce showrooms for a hundred-mile trip that will prove a revelation in ease and comfort, in ability and performance. Or if you prefer to make an appointment by telephone a Rolls-

Royce will be sent to your address for inspection and trial. You are also invited to visit the Rolls-Royce works at Springfield, Mass., whenever it is convenient for you to do so.

Any Rolls-Royce may be purchased with a moderate initial payment and the balance will be conveniently distributed.

Come to our showrooms and see the beautiful designs in coach work for immediate delivery. Los Angeles Showrooms, 951 S. Flower Street, or in Hollywood, E. L. Butler, 5756 Sunset Boulevard. Branches: New York, Boston, Chicago, Cleveland. Representatives in leading cities.

SEOUL (Korea) Oct. 2.—A Korean laborer or artisan, a Chinese without grace, is the neighbor of the Celestial republic. The ill-feeling is the laborer's which the more plodding, cheaper-living Chinaman brought even into sleep.

A walk, most anywhere, reveals a group of Koreans, standing idly, in "chimney-pipe" hats, calmly sucking their pipes. They are waiting for a job. They are the lazy and aggressive folk, but proud.

"Go after a job," repeated a question from me, calling two vigorous puffs from his pipe, he spat contemptuously on the roadside. The idea.

JOB MUST SEEK HIM

He is the "gentleman" who will a job drop at his feet. He is implored to accept it. He is short of rhetoric and blarney as regards the unfortunate to which the land of the fathers has sunk that the descendant cannot get something to do. In the meantime, the Chinaman comes in, comes by sea, comes across rivers, comes from over the mountains of Manchuria. No one has he touched land than he work to get a job, gets it, and, by dint of hard work, underhanded the Korean keeps a Korean coolie demands a wage at least 1 yen a day. The Chinaman is willing to do the job, more and more seasonally, for 80 days. Naturally, the Chinese is the job. Even the Korean General prefers the Chinese immigrant, who is steady, harder worker, provident, a saver.

Out of his 80 yen a day, the Chinese coolie spends about 10 yen a day for food and living. He is banked, and he soon makes an independent retail merchant or starts a laundry of his own. One entire street in Seoul is occupied by Chinese and their smaller small and sole of Chinese effectively bids out all foreign here that one is in Korea.

HIGHER LIVING SCALE

The Korean asked why he did not seek the job that the Chinese ultimately gets will reply, "I have a wife and family to support and a position to maintain among his people. Further, I add, his scale of living is higher than that of the Chinese. As a result of the Chinese, Chinese are flocking in larger numbers, and competition for work is daily becoming fiercer.

**CHINESE COOLIE
WADES KOREA**
Abdies Native Laborer to
Get Menial Jobs
Koreans Stand by Idly
and Banquet Fate
Ask for Work; Expect
to Seek Them

(Special Feature Correspondence)
SEOUL (Korea) Oct. 1.—The
Chinese laborer or coolie cannot
be a Chinese without grinding
himself at his neighbor from
the industrial republic. The cause
of ill-feeling is the labor prob-
lem which the more plodding and
hard-living Chinaman has
brought even into sleepy, old
Korea.

A walk, most anywhere, will
bring a group of Korean coolies
into the "chummy-stove"
and, calmly sucking their
pipes. They are waiting for
a job. They are the lazy and un-
enterprising folk, but proud as
kings.

After a job," repeated one
in question from his
two vigorous puffs from his
pipe, he spat contemptuously on
the sidewalk. The idea!

JOB MUST SEEK HIM
The "gentleman" who waits
for a job drops at his feet and
explores to accept it. He is
short of rhetoric and bitter
as regards the unfortunate
to which the land of his
ancestors has sunk that their
descendants cannot get something
in the meantime smiling
at the Chinaman comes in. He
comes from over the moun-
tains of Manchuria. No sooner
has he touched land than he sets
out to get a job, gets it, and
by dint of hard work and
enduring the Korean keeps it.
A Korean coolie demands a wage
of at least 1 yen a day. The Chi-
nese is willing to do the job bet-
ter and more zealously, for 50 sen
a day. Naturally, the Chinese gets
the job. Even the Korean Gov-
ernment prefers the Chi-
nese immigrant, who is sturdier,
harder worker, provident and
thrifty.

Of his 50 sen a day, the
coolie spends about 30
sen for food and living. The
rest is banked, and he soon be-
comes an independent retail mer-
chant or starts a laundry of his
own. One entire street in Seoul is
owned by Chinese and the
noise and smell of Chinese
effectively blots out all feel-
ings that one is in Korea.

SHOWER LIVING SCALE
The Korean asked why he does
not get the job that the Chi-
nese ultimately gets will reply that
he has a wife and family to sup-
port and a position to maintain
among his people. Further, he
will not let his scale of living be
less than that of the Chinese.
As a result of the Chinese civil
war, Chinese are flocking into
Korea in larger numbers and
competition for work is daily in-
creasing.

Gray Hair—Stop It!

Don't delay. When the first new gray hairs appear restore their natural color, life and luster with Co-Lo, the amazing discovery made by Prof. John H. Austin, over 40 years a hair and scalp specialist. Co-Lo is preferred by thousands because it is so dainty and easy to apply. It is a wonderful liquid—clear, odorless, greasyless; has no sediment and does not contain lead or sulphur. Co-Lo cannot be detected like ordinary hair tonics and dyes. It will not wash or rub off, will not injure the hair or scalp, will not cause the hair to split or break off. Co-Lo makes the hair lovely and beautiful—it restores the original color to gray and faded hair perfectly. Always a success. Co-Lo for every natural shade of hair. Ask your druggist which shade you require—A-6, for black and dark shades of brown; A-7, for jet black hair; A-8, for medium brown shades; A-9, for light brown, red and auburn shades. (Advertisement.)

BUILDER TELLS OIL BASE DEAL

Chicago Contractor Quizzed by Doheny Counsel

Latter Would Show Ordinary Procedure Followed

Declares First Word Came to Him from Bain

In a further effort to show that ordinary business procedure alone surrounded the Pearl Harbor naval oil base construction contracts and California naval oil reserve leases which Doheny interests obtained from the government while Albert B. Fall was Secretary of the Interior, counsel for Doheny interests has, Gane Dunn, contractor, tell in the United States District Court yesterday his story of events that led to the contracts and leases.

Dunn is president of the J. G. White Engineering Corporation. It is his company that entered into an arrangement with the Pan-American Petroleum and Transport Company, a Doheny concern, whereby the Pan-American company bid for the work and his company performed the work. The United States is in court to have the contracts and leases canceled on the basis of asserted illegality, collusion and fraud.

The first that Dunn knew of the Interior and Navy departments' proposal to build an oil base in the Hawaiian harbor, Dunn testified, was when H. Foster Bain, Director of the Bureau of Mines, Interior Department, called him to the government department and asked whether the White company would bid for the work. That was in December, 1921, Dunn said. He said Bain informed him that the constructing company would have to take its pay in oil from the naval reserves. Dunn said his company was interested in the proposal to build but that it was not interested in the payment in oil. Dunn said he gave Bain assistance in preliminary development of the proposal and estimated roughly that the work would cost about \$2,350,000.

BOTH HIT ON PLAN
Meanwhile, according to the witness, Bain was asking the large oil companies, among them the Doheny company, and construction companies whether they would be interested in such a proposal. It occurred to Bain, and Dunn somewhat simultaneously, Dunn said, that some arrangement could be made whereby an oil company would bid for the work and then contract with an engineering company to do it and each suggested the plan to the other.

Dunn said he arranged for a conference between himself and Joseph J. Cotter, vice-president of the Pan-American company, and that he and Cotter, and eventually Edward L. Doheny and others of the oil company agreed to work together in the matter. Dunn said he principally drew up the bid of the Pan-American company for the work, but that Cotter suggested an alternative bid and that when the bid was sent to the Interior Department it contained two proposals. One provided for a lump-sum bid that would give the Pan-American company the contract to be paid for in oil, the company to make a profit of about 10 per cent and the White company to do the work under the Pan-American company on a cost-plus basis with a fee of about 5 per cent. The other proposal provided that the Pan-American company make no profit but that it be given preference when the government would make additional leases in the reserve. The second proposal was accepted by the government, the Pan-American company receiving definite assurance concerning the future leases.

DEFENSE PROCEDURE
In all of these transactions, according to Dunn's answers to questions put to him by Frank J. Hogan, counsel for the defense, Dunn saw nothing indicating that the procedure was anything other than that which surrounded ordinary business affairs he previously had had with the government. Hogan questioned him frequently about the part Doheny and Fall had in the negotiations and, according to the witness' testimony, the part was nominal. Dunn's narrative was given in great detail and Hogan questioned him in detail about the Doheny-Fall part in the matter. The government is proceeding on the theory that collusion existed between Fall and Doheny and that the big thing involved in the whole was the virtual control by Doheny over the naval reserves, a control which he acquired through the contracts and leases.

ROBERTS QUIZZES DUNN
Owen J. Roberts, government counsel, briefly cross-examined Dunn. Dunn testified that he had no knowledge of a number of facts through which Roberts indicated that such matters as profit and leases seemingly had been fixed in the minds of some in the departments and in the company before the routine transactions took place between Dunn and department officials in working toward consummation of the contracts and leases.

Roberts brought out that in effect oil from the naval reserves had not only been traded for construction work but that it had been traded for automobiles, surveying instruments, and assistance in the use and employ of the construction company and that when the Navy's appropriation for certain employees was exhausted those employees were employed by the construction company. It is the theory of the government that the Navy and Interior Departments had no constitutional authority to exchange oil for construction work. The government concluded yesterday its cross-examination of Dunn. The line of cross-examination at the session principally was intended to show that the Fall used the cloak of secrecy required by the Navy for war plans to cover also naval oil reserve leases usually handled in an open and public manner.

Because of the election Tuesday the trial will be resumed until Wednesday at 10 a.m.

PIANIST IMPROVED
Consistent improvement was reported yesterday by Dr. E. W. Little in the condition of Miss Adelaide Le Clercq, concert pianist, who was injured seriously in a traffic accident on October 17, last. She is convalescing at the Hollywood Community Hospital.

MENACE OF WOOD FIRES STILL SEEN

County Warden Warns That Danger as Great as That of July, August Exists

An appeal to those visiting the mountain districts of the county to take every precaution to prevent forest and brush fires was issued yesterday by County Fire Warden Flintham.

Flintham stated that despite the fact that the Federal authorities and Board of Supervisors had raised the restriction prohibiting hunters and others from entering the Angeles National Forest and other mountain lands, the fire menace situation is now as bad, if not worse, than during August and September.

Rains this year have done little toward alleviating the dry conditions existing in the forest and brush lands, the Fire Warden said, adding that strong northerly winds would greatly increase the hazards that might develop with the starting of any fire.

At least two inches more of rain would be needed to make the mountain districts comparatively safe from fire menace, according to Flintham, who stated he had placed extra guards on duty in territory assigned to his department to detect and fight fires.

Officer is Wed to Sweetheart of School Days

Patrolman Charles E. Edmonds, the only unmarried member of the police narcotic squad, received a life sentence yesterday at the hands of Police Judge Pope and evinced great pleasure.

Miss Constance Bright, daughter of E. C. Bright of 3522 North Broadway, received an equally severe sentence and was equally delighted.

But instead of going to jail the two happy "prisoners" departed for a honeymoon to San Diego to the accompaniment of a shower of rice and many blessings. They will return to the city in a short time and make their residence at 344 South Main street.

The bride and groom have been sweethearts since school days.

Coroner Fixes Inquest Date in Killing at Fete

An inquest into the death of Peter A. Zarilla, 40 years of age, fruit dealer slain during the progress of a Halloween party Friday night at 408 South Griffin avenue, was conducted at 10 a.m. Wednesday, it was announced yesterday.

Walter F. Daniel, 28 years of age, a county employee, who gave himself up to police after the shooting at the slayer of the fruit dealer, is held in the City Jail on suspicion of murder. Daniel told the police that he shot Zarilla through the heart after a quarrel and what he construed to be an attempt on the part of the victim to draw a revolver.

AUTO SHOW HAS CAPACITY HOUSE

Huge Tents Are Jammed Afternoon and Evening

Exhibits Staged in Blaze of Light and Color

Special Displays Included in Variety of Features

With an attendance that jammed the four huge tents to capacity, the twelfth annual auto show of the Motor Car Dealers' Association of Los Angeles played to a capacity house yesterday afternoon and evening, and demonstrated again the keen public interest in autos that has made Los Angeles one of the premier automobile cities of the United States. Manager Burt Roberts estimated last evening that the opening attendance would eclipse any records established at previous auto shows.

The show this year is distinguished from any of its predecessors by the greatly added floor space which the removal to Exposition Park made possible, and by the lavish manner in which the decorative and lighting scheme has been carried out. At no previous show has there been such a blaze of light and color as a background for the exhibits, and the effect this year surpasses anything attempted in the past.

VARIED DISPLAY
More than 300 motor cars and something like seventy-five commercial cars and buses are included in the exhibit. The display of various types of motor buses is especially complete this year and is indicative of the growing importance of this type of motor transportation.

Another feature of the show which attracted great attention from the opening night crowds last night was the unusual display of changes in the different exhibits. The large number of mechanical changes brought about in design during the last year resulted in an unusual effort on the part of the various factories this year to stress them in cutaway chassis, and as a consequence the exhibit this year is notably interesting from a mechanical standpoint. The closed types of cars predominate in this year's show and reflect the immense public demand for them that has been evident for the past few years.

SPECIAL EXHIBITS
In the accessory tent several very interesting special exhibits are staged. Notable among them are those of the Automobile Club of Southern California, the Forest Service, and the Public Safety Bureau of the Los Angeles police department.

The doors of the auto show do not open today until 2 o'clock in the afternoon. The display will continue for the remainder of this week and close next Sunday night.

DENIED PAPER; SUES WIFE
Gabriel A. Vastano enjoys his Sunday newspaper. So when his wife, Kate Vastano, denied him the right to read it, according to his story, he suffered a high degree of mental anguish, and filed suit for divorce. His complaint on file in the County Clerk's office.

"Red" Grange Thrills 45,000 Fans as Illinois Runs Wild Over Iowa for 36-to-0 Win

BIG TEN STAR SCORES TWICE

Superior Interference Gives Illinois Victory

Grange Divides Honors With His Team-mates

Parkin, Iowa Quarterback, in the Limelight

CHAMPAIGN (Ill.) Nov. 1.—With Harold "Red" Grange, the unstopable, confounding his sensational flight to fame as America's foremost football star, Illinois moved a notch further toward the 1924 Western Conference championship today by crushing Iowa 36 to 0, before 45,000 spectators in the new Illinois Memorial Stadium.

Superior interference for Grange, as well as the other backfield stars, and brilliant forward passing enabled the "fighting Illini" to pile up the one-sided score.

Grange divided honors with his team-mates, scoring two of the Illinois five touchdowns. Although the famous redhead failed to break away from any of his marathon touchdowns, he gained consistently at times, scored three successful passes and never failed in a pinch.

Parkin, Iowa's quarterback, who gained fame when he scored a winning touchdown against Yale in 1923, broke loose for some sparkling runs, but his performance was overshadowed by Grange.

The showing made by Grange's other backfield men was brilliant. McIlwain, who played two quarters with a broken hand, Schultz, Gillis, Britton, Hall, Green and Ford, all gained consistently.

The game as a whole was rather slow, both teams taking a good deal of time in calling signals.

The lineup and summary:

Illinois—L. E. if a million years or so before the glacial period covered the portion of the northern hemisphere with icebergs an elderly t, wearing two large tusks in his upper jaw and two in his

Continuing their genial

REALLY A MASTODON
"This four-tusked elephant, which is known to science as a Tetrabelodon, was one of the earlier forms of the elephant family, and it has been determined the first part of the Pliocene period, whose duration is estimated at 1,800,000 years. It was not really an elephant, but had the same form of mastodon. It was smaller than the Pleistocene mastodon and differed especially from the latter in that its tusks were curved, which ended in long curved tusks both above and below." The Petrified Forest and the adjacent fields it presents a series of the Pliocene period ever discovered in this country, according to Dr. Cook.

"Pliocene rocks are found in the Mojave Desert which contains the same as the Petrified Forest of Southern California, 60- among the fossilized stumps and other growths a large number of bones of animals that had belonged to a creek-known to the mining man, limited it to Dr. W. A. Bryce, president of the Los Angeles and after a few days of the it was decided that the was the lower jaw of the four-tusked elephant, and was found near 1,000,000 years ago.

HER BONES FOUND
"The first of the bones was found by a ranchman called the find to the name of Dr. Chester Stock, the department of paleontology of the University of California.

number of workmen for purpose of locating, if possible, bones of the prehistoric mammoth. The discovery was made in a fissure, or thigh, about three feet long, near the base the jaw had been discovered. It had evidently been broken off by a blow. An additional bone was brought home yesterday by Dr. Work is still going forward in the hope that other bones of the ancient elephant's leg may be found.

As the mammoth, the fossilized bones of which were discovered in Red Canyon, which is some six miles from the Petrified Forest, were found in a fissure, it is probable that the bones were thrown there by a volcanic eruption. The formation throughout the country is of volcanic origin and furnishes striking evidence of convulsions of nature that must have taken place in this region in times gone by.

CLIMATE CHANGED

write it down while it's hot. I'll send it to The Times Local Editor. Perhaps some friend will write a note to the editor. The idea behind "Laughs" is to present a selection of movie auditions. I hope to make the enterprise is entirely a creative one between The Times readers and moviegoers.

**COUNCIL WILL ACT

"One of the interesting things revealed by a study of these formations is that they exist in the climatic conditions that has taken place in this region since these formations were deposited," Dr. Stock. "At present the Mojave is a rainless desert, but the fossilized plants and animals we've lived there show that at one time it must have produced vegetation and a variety of animals, particularly grasses. The fossilized plants and two dozen species of animals have been found in the same place."

information in which the fossils have been made bases of the Pliocene period which is the Pliocene or glacial age," said Dr. When it is considered that the fossils are estimated to have closed some 30,000 years ago, it is not surprising that the fossils are found in this region. Most of the fossils are of the same kind, and have been included, in addition to elephants and mastodons, extinct varieties of horses, deer, and other mammals. The large amount of petrified wood, which includes many kinds of trees, indicates that the place at one time was a forest.

EXHIBIT OPENS

Yesterday marked the opening of the contest of craftsmanship at the Distance League, 5604 DeLongpre avenue, which offers the big opportunity for individual workers in handicraft ever presented in Southern California. The contest will last one month and close late to be held at the Alexandria December 4 and 5.

The purpose of the contest is to give individuals an opportunity to display samples of work, for which they accept orders. It is not to sell the work of those who make some particular novelty. It is to offer it for sale at the discretion of the individual worker.

There is need for examples of silver, of brass, copper, leather and wood products. Hand-woven rugs, mats, scarves, or linens in wool, silk or linen, may be entered as well as every type of needle-

The materials made at the two companies will be available for bidding for bids and that \$450 appropriated by the Council for the purpose of the contest. President McGuire and Commissioner Eldridge voted "yes" at yesterday's meeting of the board and Commissioner Delaney voted "yes."

**Alhambra

as Traffic**

Each article should bear the name and address of the maker. No fee is charged for registration, nor is there any charge for entering the contest. There will be a charge of 10 per cent made on all products that are entered and sold either at the gift shop in the Community House or at the Alexandria store.

Thousand See Fire Resisted by Tile House

erves and candies may be sold at any time.

At the meeting, the two committees should be 100 per cent pure is the set. There must be no adulteration of the foods on the contest.

There are cakes, of bread, rolls, and food specialties who wish to sell orders should register with the Food and Beverage League. But periods should not be on the contest until the last day.

STANDARD IS HIGH

Indicates of proficiency will be by those who reach the standard of perfection that is set.

Members of commerce throughout California are to be and many have expressed eagerness to endorse the work of the committee.

Filled with inflammable material soaked in kerosene, the house erected at 4401 Biltmore Boulevard by the Biltmore California Manufacturers of Cement Products withstood a temperature of 1800 deg. when ignited by Mayor Crier yesterday.

More than 1000 people witnessed the event, including Boyle Workman, president of the City Council, and Fire Chief Scott. The walls of the house were so hot that the event was staged to demonstrate the fire-resisting qualities of this concrete.

The affair was livened by music from Hennessy's Orchestra.

The Jewish Daily Forward has the largest circulation of any alien newspaper in America.

At the meeting, which was held over by William J. King, president of the Alhambra Theatre, the committee presented by King of the Municipal Taxpayers Association, who said that the city would not be able to live on the profits to be derived from such a large and co-operation effort.

The committee consisting of King, Chris Campbell, John and Mrs. E. Morrissey, was directed by H. H. Heerman, president of the Commercial Union, to investigate the tunnel project.

In producing a dog drama, a canine hero and villain fought recently, the director of the picture because the two of these roles became friends while the picture was being made.

EL PASO LINES

IN ESPEE HANDS

Southwestern System Lease Goes Into Effect

Tucson Division Put in New Eastern District

Operating Department Shifts Are Announced

(EXCLUSIVE DISPATCH)

RAN FRANCISCO, Nov. 1.—Railroad properties of the E. P. & S. W. and Southern system are being operated today under lease by the Southern Pacific Company as a part of its Pacific system, in accordance with announcement made late yesterday by William Sproule, president of the Southern Pacific Company and T. M. Schumacher, president of the E. P. & S. W. Authority for such lease and operation was extended last month by the Interstate Commerce Commission.

The Southern Pacific Company's lines west of El Paso and Ogden with which the E. P. & S. W. properties were associated today, have heretofore been divided into two operating districts, the northern and southern. A third operating district to be known as the eastern district is now being formed. The Tucson division of the Southern Pacific has been taken from the jurisdiction of the southern district and grouped with the E. P. & S. W. properties to form the new eastern district.

In connection with the change a number of appointments in the operating departments were announced by J. H. Dyer, general manager of the Southern Pacific Company. Announcement of appointments and traffic officers will follow shortly.

CHANGE DIVISIONS

A. E. Eweat, who has been vice-president and general manager of the E. P. & S. W. system, has been named general manager of the Southern Pacific with jurisdiction over the eastern district. Under the new arrangement the Tucson division includes all lines east of the Colorado River to and including the Rio Grande division, including the lines of the Arizona Eastern and the new lines to be constructed in Arizona. The two other divisions of the system, the Rio Grande division, including all lines east of Tucson to El Paso and the New Mexico division, including the E. P. & S. W. lines east of El Paso to and including Tucumcari and the line from Tucumcari to Denver.

L. U. Morris, general superintendent of the E. P. & S. W., becomes superintendent of the Rio Grande division with headquarters at El Paso. H. S. Fairbank, superintendent of the Tucson division, becomes superintendent of the New Mexico division with headquarters at El Paso. J. C. Williams, superintendent of the Tucson division with headquarters at Tucson.

PROMOTIONS GIVEN

W. B. Kirkland, trainmaster on the Sacramento division of Southern Pacific, has been promoted to the position of assistant superintendent of the Rio Grande division with headquarters at El Paso. E. D. Beeth, superintendent of the eastern division of the E. P. & S. W., becomes assistant superintendent of the Tucson division with headquarters at Tucson. Douglas F. L. Guy, resident engineer of the Wilcox district, becomes division engineer for the Rio Grande division with headquarters at El Paso. E. J. Zerkow, division engineer of the Tucson division at Lordsburg, becomes the trainmaster for the Rio Grande division with headquarters at Bowie, Ariz.

R. U. Lipscomb, assistant superintendent of motive power and equipment of the Texas and Louisiana lines, is promoted to the position of superintendent of motive power of the Tucson district with headquarters at El Paso.

DISTRICT STOREKEEPER

L. G. Pearson, general storekeeper for the E. P. & S. W., becomes district boss of the Tucson district with headquarters at El Paso. He will also be division storekeeper for the Globe and New Mexico divisions.

H. E. Stansburg, resident engineer for the E. P. & S. W., at Tucumcari, becomes division engineer for the New Mexico division with headquarters at El Paso.

Other appointments in the new quarters at El Paso include: trainmaster, N. B. Eifort, trainmaster, J. F. Nash, trainmaster, New Mexico division at Carrizozo, N. M.; E. Gordon, master mechanic, New Mexico division at Tucumcari; M. L. Hull, road foreman, New Mexico division at Tucumcari; W. S. Ford, terminal trainmaster at El Paso; A. G. Smith, division engineer, Rio Grande division at El Paso; W. O. Reid, master mechanic, Rio Grande division. Other Tucson division officers remain unchanged.

Store Worker Is Arrested as Accused in Hold-up

By a "Times" Staff Correspondent

LONG BEACH, Nov. 1.—Frank Campbell, 19 years of age, employed in an Owl Drug Store here, was arrested today by Detective Sergeant A. H. Smith and placed in the City Jail for investigation of conspiracy.

Smith declared that they had discovered that the gun used in the Owl Drug Store at Ocean and Pacific avenues had been bought by Campbell and that several hand-were by Campbell. Harry W. Banks is the gunman who valued the drug store and was held at \$5000 and will be extradited for trial in Superior Court.

SEVERE EARTHQUAKE FELT IN NICARAGUA

(BY CABLE AND ASSOCIATED PRESS)

SAN JUAN DEL SUR (Nic.), Nov. 1.—A strong earthquake occurred last night and is believed to have been caused by the activity of the Ometepe Island volcano, in Lake Nicaragua, about twenty miles from here. The quake was felt at Granada and San Jorge. No damage was reported.
